

In The Claims:

Please replace the previously presented claim set with the following replacement claim set:

1. (Previously Presented) An agrochemical composition comprising an agrochemical active ingredient selected from paraquat or diquat or mixtures thereof, and cyclic amines or cyclic amides having at least one tertiary amine group or tertiary nitrogen, as an amine or amide adjuvant.

2-3. (Canceled)

4. (Previously Presented) The agrochemical composition of claim 1 wherein the concentration of the paraquat or diquat or mixtures thereof is greater than 100 g/l.

5. (Previously Presented) The agrochemical composition of claim 1 wherein said amine or amide adjuvant is selected from the group consisting of quinuclidine or a salt thereof, N-(aminopropyl)morpholine or salt thereof, 1-(2-hydroxyethyl-2-imidazolidinone) and aminoethylpiperazine or a salt thereof.

6. (Previously Presented) The agrochemical composition of claim 1 wherein the ratio by weight of the amine or amide adjuvant to the agrochemical active ingredient is from 1:20 to 10:1.

7. (Previously Presented) The agrochemical composition of claim 1 wherein the ratio by weight of the amine or amide adjuvant to the agrochemical active ingredient is from 1:10 to 1:2.

8. (Withdrawn) The agrochemical composition of claim 4 which further comprises from 10 to 400 grams per litre, of an electrolyte purgative

9. (Withdrawn) The agrochemical composition of claim 8 wherein said electrolyte purgative is magnesium sulphate.

10. (Withdrawn) The agrochemical composition of claim 8 which further comprises an alginate which is a pH-triggered gelling agent such that a pH-triggered gel effect takes place at the acid pH of human gastric juice.

11. (Withdrawn) The agrochemical composition of claim 9 which comprises from 10 to 100 grams per litre of magnesium sulphate as an electrolyte purgative.

12. (Withdrawn) The agrochemical composition of claim 1 which further comprises a second adjuvant.

13. (Withdrawn) The agrochemical composition of claim 12 wherein said second adjuvant is a surfactant.

14. (Withdrawn) The agrochemical composition of claim 13 wherein said surfactant is selected from the group consisting of alkyl polyglycosides, betaines, alkylethoxy phosphates and salts thereof, alcohol ether carboxylic acids and salts thereof, alcohol ether sulphates and salts thereof.

15. (Withdrawn) The agrochemical composition of claim 12 wherein said second adjuvant is present at a lower concentration than said amine or amide adjuvant.

16. (Withdrawn) The agrochemical composition of claim 15 wherein said second adjuvant is selected from the group consisting of alcohol ethoxylates, amine ethoxylates, amine oxides and cationics such as quaternary ammonium salts.

17. (Withdrawn) The agrochemical composition of claim 12 wherein the ratio by weight of the amine or amide adjuvant to the second adjuvant ranges from 50:1 to 1:50.

18. (Withdrawn) The agrochemical composition of claim 17 wherein the ratio by weight of the amine or amide adjuvant to the second adjuvant ranges from 10:1 to 1:10.

19. (Withdrawn) The agrochemical composition of claim 16 wherein the ratio by weight of the amine or amide adjuvant to the second adjuvant ranges from 1:1 down to 1:25.

20. (Withdrawn) The agrochemical composition of claim 19 wherein the ratio by weight of the amine or amide adjuvant to the second adjuvant ranges from 1:4 to 1:15.

21. (Withdrawn) The agrochemical composition of claim 12 wherein the ratio by weight of the amine or amide adjuvant and the second adjuvant to the agrochemical active ingredient is from 1:10 to 10:1.

22. (Withdrawn) The agrochemical composition of claim 21 wherein the ratio by weight of the amine or amide adjuvant and the second adjuvant to the agrochemical active ingredient is from 1:5 to 10:1.

23. (New) An agrochemical composition comprising an agrochemical active ingredient selected from paraquat or diquat or mixtures thereof, and N-(aminopropyl)morpholine or salt thereof as an adjuvant.

24. (New) The agrochemical composition of claim 24 wherein the agrochemical active ingredient comprises paraquat.
